TRAINING AND CERTIFICATIONS

MERN Full-Stack (SQA)

January 2023 – June 2023

Dursikshya Education Network Pvt. Ltd.

Using MERN stack to develop web application with JS only

Frontend Web Development

April 2020 – April 2022

VoxCrow Pvt. Ltd.

Trained and applied HTML5, CSS3, JS, jQuery to develop web applications

PHP Development

March 2018 – October 2018

Academia International College

Became proficient in CRUD functionalities

PROJECTS

Title: [Music Managing App](#) 

Duration: September 2024

Technology Used: ReactJS, ExpressJS, NodeJS, MongoDB, HTML5, CSS3

Objectives:

- To create a simple and responsive web application using ReactJS to sort and manage songs and its related information such as artists, album, released date, etc.

Key Achievements:

- Implemented a modular architecture using separate routes, models, and controllers for scalability
- Integrated dynamic dropdowns to link artists and songs seamlessly
- Enabled efficient data management with CSV import/export functionality and timestamp tracking

Results:

- Successfully developed a user-friendly web app for managing music data and streamlined workflows for creating, updating, and displaying music-related information, ensuring an intuitive user experience

Title: [Unsplash Image Search Application](#) 

Duration: August 2023

Technology Used: ReactJS

Objectives:

- To create a simple user friendly and responsive UI using ReactJS and CSS to search images through text and display corresponding images that match the search query
- To use the Unsplash open-source image database to fetch images

Key Achievements:

- Efficient use of hooks to fetch the JSON data and deploy infinite scrolling

Results:

- Successfully built a ReactJS app that fetches images from the Unsplash open-source image database that matches the text input from the user and displays the images in a grid format

Title: [Ivazz Pvt. Ltd. Website Design](#) 

Duration: July 2023

Technology Used: ReactJS, HTML, CSS, Bootstrap

Objectives:

- To create a responsive website for Ivazz Pvt. Ltd.
- To show efficient use of CSS and JS

Key Achievements:

- Created a fully responsive website design
- Used JS and CSS efficiently without much redundancy

Results:

- A company website showing all the necessary elements and the particulars flexible and receptive across various devices

Title: [ReactJS E-commerce Web Application](#) 

Duration: December 2022 – July 2023

Technology Used: ReactJS, ExpressJS, NodeJS, MongoDB, CSS

Objectives:

- To create an E-commerce web app where users can register, login, post and buy various products

Key Achievements:

- Created a registration form where users can either register as buyers or sellers
- Used Mailtrap.io as a test mail server to login, register and verify emails
- Sellers can successfully post a product and buyers can add those products to their carts and buy them
- Used Stripe.com to test and simulate payments and transactions without using real money

Results:

- An E-commerce web application where users can register themselves to sell or buy products and seamlessly go through the transaction process mimicking real world websites

Title: [Social Network Web Application Design](#) 

Duration: September 2023

Technology Used: PHP, JS, HTML, CSS

Objectives:

- Create a responsive design as indicated in the provided wireframe model

Key Achievements:

- Built a responsive and detailed web application exactly like the design that was provided
- Showed the efficient use of JS and CSS to make the application responsive and user friendly

Results:

- A social network web application design that displays the proper use of JS and CSS susceptible throughout multiple devices of different display format

PARTICIPATIONS / ACHIEVEMENTS

Web Application Project Competition

11th July 2023

Organized by Dursikshya Education Network Pvt. Ltd.

Built a functioning E-commerce web application with ReactJS

5th Position

PHP Web Development Contest

25th September 2019

Organized by Academia International College

Built a functioning "Blood Bank" web application with CRUD operations in PHP

6th Position

Art Competition

20th August 2010

Organized by National Museum of Nepal

Made a sketch portrait of "Manjushree"

2nd Position
